

INDUSTRIAL **POWER PLANT** SOLUTIONS.

Power Plant Spares & Industrial
Engineering Solutions

METEORIC is a mission-driven engineering company specializing in power plant spares and industrial products. With a strong foundation in technical precision and certified quality standards, we deliver reliable, efficient, and ethically sourced products to support uninterrupted plant operations. Our end-to-end support approach ensures optimized performance, reduced downtime, and long-term operational reliability. At **METEORIC** we combine engineering excellence with responsible business practices to serve power generation and heavy industrial sectors with integrity and commitment.

Dedicated service and operational support, contributing skills and expertise while working with the company's original brand identity.

2021 to 2025

2026 and Beyond

A new identity focus on quality, engineering excellence, precision, and reliable solutions for future industrial growth.

Our Mission

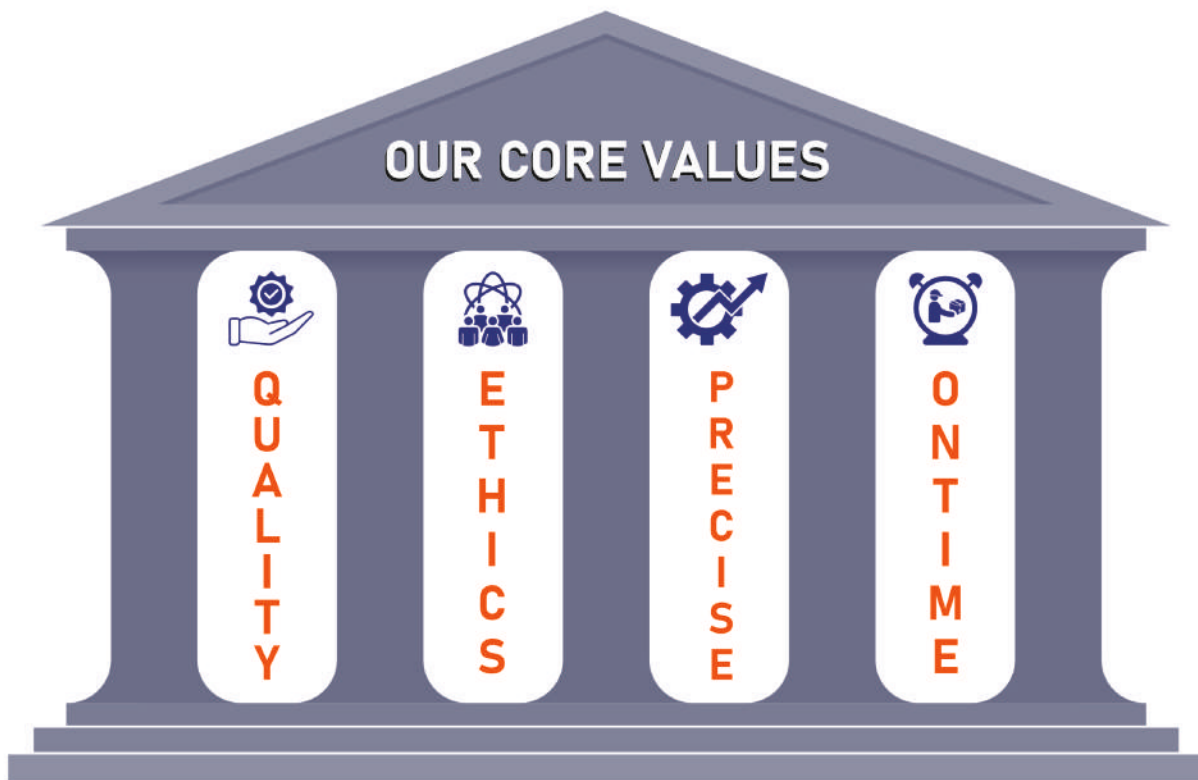

Our mission is to follow our passion support industrial growth by supplying world-class power plant equipment and industrial products and services. We are committed to uncompromising quality, competitive value, and timely execution in every project we undertake.

Our Vision

Meteoric Engineering envisions becoming a stronger and more competitive organization by driving structured growth, expanding its client base and project portfolio, enhancing operational efficiency and reinforcing its market position. By fostering innovation, accountability, and continuous improvement, the company is dedicated to building long-term sustainability and organizational excellence

OUR CORE VALUES

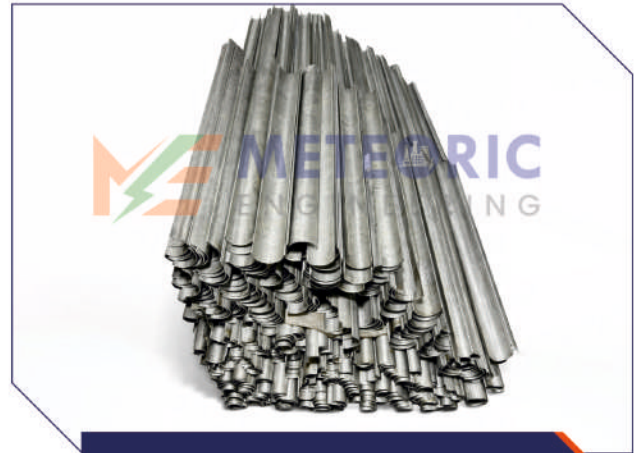

We are the believers of Quality Assurance, Ethics, Efficient & Prompt Service, Timely Delivery commitment and are possessively committed to these values, & ensure that all our current and future generation of leaders understand and practice them.

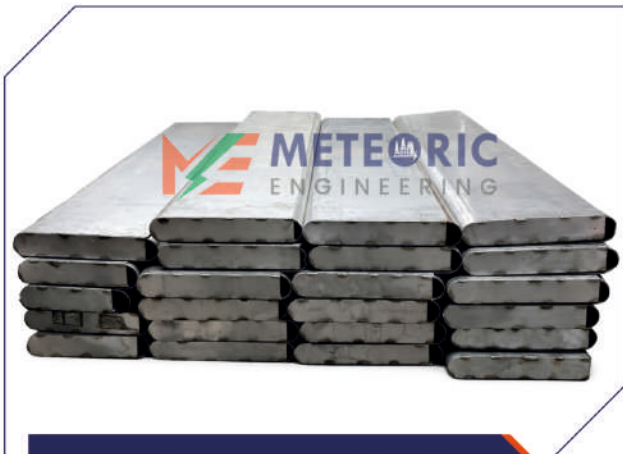

We will not do any business or take any decision which does not fits into our value system and ideology.

HT SS Fasteners

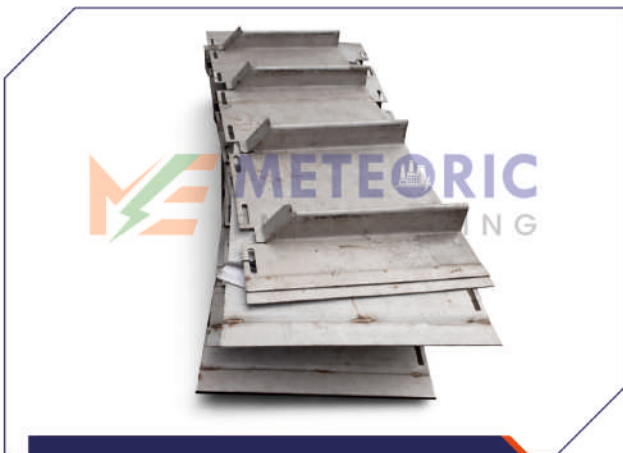

SS Tube Protector (Shield)

SS Cassette Baffle

Coal Nozzle Baffle Plate

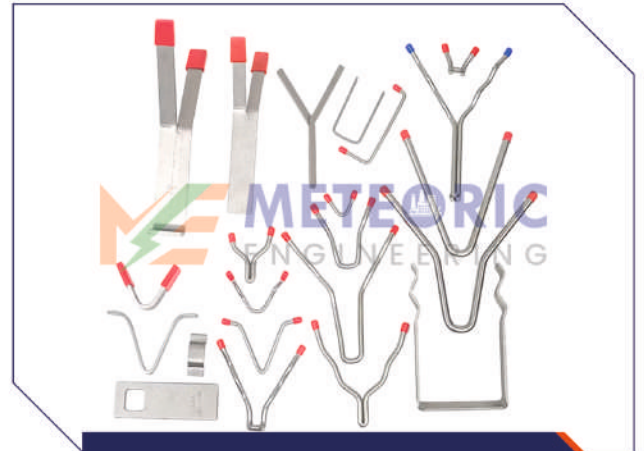

Boiler Seal Plate

Valve Spares

Wall Blower & LRSB Lance

All Types Refractory Anchors

Combustor Nozzle Assembly

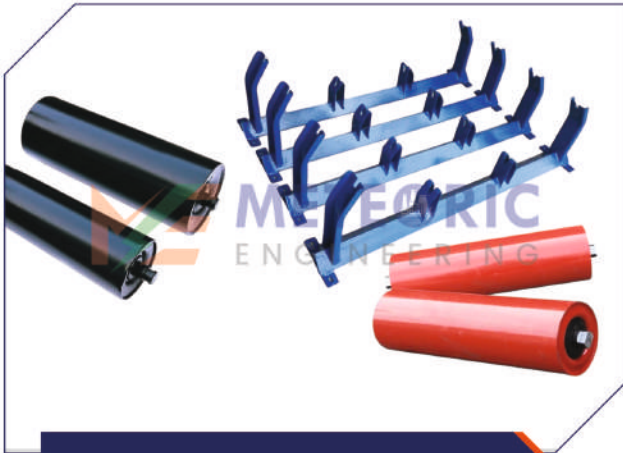

Pump Shaft

Pump Sleeve

Special Types Coupling Bolt

Conveyor Roller & Frame

Inner arm Assy for ESP

Alloy Steel Liners

Special Worm Shaft & Gear

SS Wire Mesh

Special Rubber Parts

MS & GI Grating (Grills)

Precision-made MS & GI grating (grills) with galvanized coating provide high strength, corrosion resistance, uniform structure, excellent load capacity, long durability, and reliable use in power plants and industrial projects.

Anti Smog Cannon Machine

Model: M-50

- ☑ Throw Range : 40-50 meters (without adverse wind)
- ☑ Power Rating : 3 phases Fan Motor 15 HP, Pump 3 HP, Swing Motor 0.5 HP
- ☑ Mounting : 4-Wheel
- ☑ Vertical Pitching Angle : upto 40°
- ☑ Horizontal Rotation Angle : 320°
- ☑ Control Panel : IP 65 Double Door Type
- ☑ Water Tank Capacity : 1000 Ltr

High performance anti-smog cannon machine suitable for construction sites, mining, and power plants, providing long-range mist spray control with efficient pump and stable mobile structure.

*Committed to quality,
driven by passion,
building industries with pride.*
